More Life Out of Your Time

Make time for time management and it will be some of the best time you've ever spent. You will learn to increase your personal productivity to get more life out of your time. The Time Mastery Profile® will be used to analyze your current time use in 12 critical areas and you'll take home customized strategies to conquer procrastination, establish clear goals and much more.

Leading People to Effectiveness

You will explore how you approach the most fundamental work of leaders: creating a vision, building alignment around that vision, and championing execution of the vision. In advance of the workshop you will be required to complete an online assessment - Everything DiSC® Work of Leaders™. You will be asked to provide a personal email address to complete this assessment.
